# Cloud Cost Review FY2027

Prepared by Finance with Engineering to set the FY2027 cloud budget.

## Summary

The FY2026 cloud run-rate is $1.68M. We commit to an 18% savings target, which sets the FY2027 cloud budget at $1.38M.

| Area | FY2026 run-rate | FY2027 target |
|---|---|---|
| Compute (Kubernetes nodes) | $720,000 | $560,000 |
| TimescaleDB and storage | $410,000 | $360,000 |
| Kafka | $260,000 | $230,000 |
| Networking and egress | $170,000 | $140,000 |
| Other | $120,000 | $90,000 |

## Savings levers

- Move route-planner workers to spot instances.
- Shorten raw telemetry retention in Kafka from 14 to 7 days.
- Commit to a 1-year compute savings plan.
