Office Wi-Fi Guide

Both offices have two wireless networks. Use the right one for your device.

ORB-CORP (employees)

Company laptops join ORB-CORP automatically using your company sign-in. Personal phones may join after enrolling in device management from the self-service portal.

ORB-GUEST (visitors)

Visitors receive a daily access code from reception. The guest network is internet-only and cannot reach internal systems.

Trouble connecting?

Forget the network on your device and reconnect. If that fails, contact the helpdesk on extension 4357.
